To Open Bids for Barn.

The county commissioners will open the bids today (Friday) submitted by contractors for the construction of the new barn at the children's home, near Putnam.

The terms of the contract require that the building be completed on or before July 1.

Result of Examination.

Postmaster C. A. Potter has received information from the civil service department relative to the rank attained by the score or more candidates who recently took the examination for appointment to a clerical position in the Danielson postoffice. The name of the person to receive the appointment will be announced in a few days.

Independent Teams.

It is understood that Dayville and Putnam baseball teams will play independent games this summer, neither being represented in the Eastern Connecticut league as the circuit is now arranged. Dayville will have a strong team in all probability, and will cater to the fans of Killingly.

Still Getting Coal.

Many carloads of bituminous coal are now being hauled daily over the local branch of the Midland division. Manufacturers in this section continue to receive a supply sufficient for their needs. The plant depending in some measure on water for power have an ample supply.

The ladies of the Methodist church met with success at the rummage sale conducted this week in the store of the Danielson Cotton company. The committee in charge received generous contributions of articles with which the owners could dispense.

Bankrupt Pastor to Leave East Killingly.

has closed his pastorate at the First Baptist church in East Killingly. It is understood that he will move his family to Worcester, where he has been at work for some time.

The painters and paperhangers have found the present spring one of the most busy in years in Danielson. For several weeks the demand for their services has been so great as to crowd them every minute and the rush of work is still on.

Propose Memorial to Dr. W. E. Hyde.

From a wealthy member of the Killingly high school alumni association comes the suggestion that the organization consider a memorial for Dr. W. E. Hyde, who was always a friend of the school and many times rendered valuable service in aid of its upbuilding and expansion. The suggestion will probably receive consideration at the annual meeting of the alumni association in June.

Current Interests.

In anticipation of a visit by Bishop Chauncey Bruce Brewster, a confirmation class is being prepared at St. Alban's church.

PUTNAM

Arcanum Club's Show a Big Success—Considerable Stolen Wine Located—Fred Murphy's Death Follows Family Reunion—Wedding—General News.

The Arcanum club of this city was sponsor for the fine vaudeville show that was given at the Bradley theater Thursday evening when the house held one of the largest audiences of the year.

The receipts from the entertainment go into the treasury of the club, which booked the acts, renting the theater for the evening. The five vaudeville acts on the program included Elmer Dewitt, novelty comedy act; Van and Vaidette, the German duo; Jack McCabe, Scotch entertainer; Ward & Cullane, comedy singers and dancers; and Harry and Kate Jackson in the popular novelty sketch entitled Cupid Voyage. Motion pictures completed the big bill, which was much appreciated.

Webster Strikers to Parade.

A number of Putnam people were planning Thursday to go to Webster this (Friday) morning to observe the parade of strikers from the Slater mill in that town. There was little chance in the situation Thursday, but today it is expected that the strikers will be organized as members of the I. W. W.

The city has an extension of time for the use of the cells in what has been the incursion in the basement of the Central building. The new cells to be installed in the town and city building have not arrived, so it will be necessary to use the old prisoners' quarters until they do, which will probably be in a short time.

STOLEN WIRE

Located in Possession of Junkmen—Police on the Trail of Thieves.

Some of the junk dealers of the city

have been under the scrutiny of Capt. John Murray of the police in his search for several hundred pounds of copper wire, stolen April 13 in a neighborhood near the city. The wire was located in a junkman's possession. It is probable that the local junkmen who purchased the wire did so without knowledge that they were receiving stolen goods. No arrests had been made in connection with the case up to Thursday night, but it is understood that warrants have been issued in the neighboring town where the wire came from for two men who are believed to be responsible for the theft.

Libby-Perry Marriage.

At the Congregational parsonage in Hudson, N. H., at 6:30 o'clock Thursday evening, Miss E. L. Perry, daughter of Rev. and Mrs. L. E. Rev. F. D. Sargent, officiated at the funeral of Fred Murley, 37, held from the home of his parents at two o'clock Thursday afternoon. The body will be taken to Illinois for burial.

Nine years ago Fred and Thomas Murley started for the west, beginning business in different states. The two brothers had not met during the nine years until last Sunday, when Fred arrived at his father's home, to find his brother had also returned home. This happy reunion ended suddenly Monday by the death of the elder brother.

STUDYING FORESTRY.

Course of One Year With Biltmore School Includes Six Months in Europe and Six in United States.

Carl H. Nye, son of Charles D. Nye, of Waterbury, has been home from a six months' trip in Europe with students of the Biltmore Forestry school, having studied forestry under the direction of Dr. C. A. Schenck. Most of the time was spent in Germany and Mr. Nye had many interesting stories to tell of his experiences there. He was only home for a few days as the school reassembled at Tupper lake in the Adirondacks April 1.

After two weeks at Tupper lake the school will go to Washington, D. C., for a week, thence to Newbern, N. C., thence to Sunburst, near Asheville, spending the greater part of the summer at Cadillac, Mich. From that place it will move on toward Oregon, with stops on the way, and after a season in the coast lumbering district will come back East by way of Texas and Louisiana.

The school is a sort of a peripatetic institution which has its headquarters in North Carolina, but has no buildings. Dr. Schenck travels with his school, lecturing to the students daily and giving them practical experience in field work. The course is one year and covers six months in Europe and six months in the United States.

The school left here on the New Amsterdam, on October 3, and from

Rotterdam went direct to Bensheim in a special car to get a general knowledge of what they were to study in more detail. Bensheim is a village in the Oldenwald, near Hoppenheim and Weinheim, in the Rhine country, the next day field work began, with a 10-mile tramp to Lindensfels, the baggage going by wagon. There was an old castle in the neighborhood, and other things to be seen, and the pupils were initiated in the art of tree planting and some of the rudimentary work of forestry.

After two weeks at Lindensfels the school moved bodily to Darmstadt, some walking the 22 miles and others taking the baggage by train, and settled down with that city as headquarters. There was regular routine work, usually three hours of lectures in the morning and the afternoons

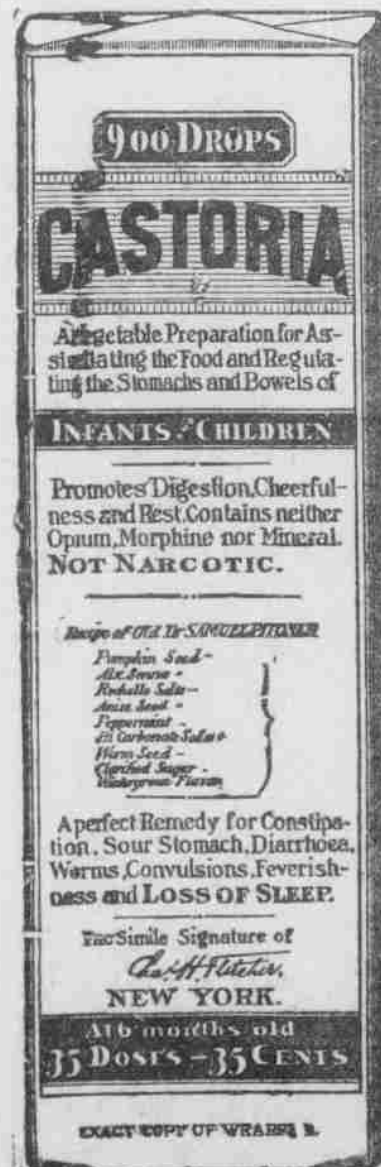

given up to field work. All took a course in mapping and microscopic work in the Technological High school of Darmstadt, where there are 2,000 students, which required one lesson a week. Another course in the same institution was the study of tree identification. In the systems of the city the youngsters made surveys and visited furniture factories, cooperage works and wooden ware works and took up tree planting. Almost every day there was a trip either foot or by train to visit some place where some feature of their future work could be studied.

Why Physicians Recommend Castoria

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: *First*—The indisputable evidence that it is harmless: *Second*—That it not only allays stomach pains and quiets the nerves, but assimilates the food: *Third*—It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—*Hall's Journal of Health.*

The Kind You Have Always Bought and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children.—Experience against Experiment.

GENUINE
CASTORIA
Bears the Signature of

Letters from Prominent Physicians Addressed to Chas. H. Fletcher.

Dr. W. L. Leister, of Rogers, Ark., says: "As a practicing physician I use Castoria and like it very much."

Dr. W. T. Sealey, of Amity, N. Y., says: "I have used your Castoria for several years in my practice and have found it a safe and reliable remedy."

Dr. Raymond M. Evans, of Santa Ynez, Cal., says: "After using your Castoria for children for years it annoys me greatly to have an ignorant druggist substitute something else, especially to the patient's disadvantage, as in this case. I enclose herewith the wrapper of the imitation."

Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartiest recommendation of Castoria."

Dr. W. F. Wallace, of Bradford, N. H., says: "I use your Castoria in my practice, and in my family."

Dr. Wm. I. McCann, of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine and aside from my own family experience, I have, in my years of practice, found Castoria a popular and efficient remedy in almost every home."

Dr. Howard James, of New York, City, says: "It is with great pleasure that I desire to testify to the medicinal virtue of your Castoria. I have used it with marked benefit in the case of my own daughter, and have obtained excellent result from its administration to other children in my practice."

Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."

Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria often for infants during my practice and find it very satisfactory."

Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."

Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's."

Dr. Channing H. Cook, of Saint Louis, Mo., says: "I have used your Castoria for several years past in my own family and have always found it thoroughly efficient and never objected to by children, which is a great consideration in view of the fact that most medicines of this character are obnoxious and therefore difficult of administration. As a laxative I consider it the peer of anything that I ever prescribed."

Dr. L. O. Morgan, of So. Amboy, N. J., says: "I prescribe your Castoria every day for children who are suffering from constipation, with better effect than I receive from any other combination of drugs."

Dr. H. J. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."

Dr. Wm. L. Bowdman, of Buffalo, N. Y., says: "I am pleased to speak a good word for your Castoria. I think so highly of it that I not only recommend it to others, but have used it in my own family."

Dr. F. H. Kyle, of St. Paul, Minn., says: "It affords me pleasure to add my name to the long list of those who have used and now endorse your Castoria. The fact of the ingredients being known through the printing of the formula on the wrapper is one good and sufficient reason for the recommendation of any physician. I know of its good qualities and recommend it cheerfully."
